- **AWS - Fundamentals: Going Cloud-Native** | Coursera, Amazon Web Services
- **Build & Deploy AI Messenger Chabot using IBM Watson** | Coursera, IBM project network
- **Technical Support Fundamentals** | Coursera, Google
- **The fundamentals of Digital Marketing** | Google

## PROJECTS

**EVENT MANAGEMENT SYSTEM USING JAVA**

Developed a comprehensive Event Management System project using Java, showcasing proficiency in software development. Designed a user-friendly interface for event planning, registration, and incorporating features for attendee management & scheduling. Leveraged Java's object-oriented programming to ensure efficient codebase and functionality. This project demonstrated my ability to create practical solutions that enhance event organization and streamline logistical processes.
